Lakes Region Planning Commission Meeting

November 23, 2009
Pinckney Boathouse, Brewster Academy
Wolfeboro, NH
6:00 P.M.

To: LRPC Commissioners, City Councils/Selectmen, Planning Boards, Conservation Commissions, Interested Parties:

Throughout the year considerable discussion has occurred in federal, state, and municipal offices regarding infrastructure plans and financing. While new federal stimulus funding has resulted in a number of visible road improvements, most experts say we need years of similar support just to maintain what we have. To provide insight on these and future transportation infrastructure challenges, NH Department of Transportation (DOT) Commissioner George Campbell will join us at the November 23 meeting of the Lakes Region Planning Commission (LRPC). Starting at 6:00 pm, the meeting will be held in the Pinckney Boathouse at Brewster Academy in Wolfeboro.

Commissioner Campbell will touch upon several subjects, including: the rationale for the state's transportation priorities, how the state has allocated new federal funding from the American Recovery and Reinvestment Act, the DOT's perspective on the state's Ten Year Transportation Improvement Plan, and more.

Following the Commissioner's presentation, the meeting will include presentations on the NH Rail Transit Authority and the 2010 Transportation Enhancements (TE) priorities for the Lakes Region. The priorities, which need Commissioner action, were developed by the LRPC Transportation Technical Advisory Committee (TAC).

All LRPC Commission meetings are open to the public. Please contact us at 279-8171 or lrpc@lakesrpc.org for additional information or special accommodation.
