

Bring Them In!

Each household is limited to
10 gallons or 50 pounds.

House

- Arts & craft supplies
- Drain opener
- Dry-cleaning fluids
- Epoxies & resins
- Floor cleaner & polish
- Metal polish
- Oven cleaner
- Roofing tar
- Spot remover
- Unbroken fluorescent bulbs (including CFLs)

Yard and Garden

- Cesspool cleaner
- Coal tar-based driveway sealer
- Muriatic acid
- Pesticides
- Herbicides & weed killers
- Pool chemicals
- Rust preventative

NO COMMERCIAL WASTE!

Garage

- Radiator cleaners
- Car wax & polish
- Carburetor cleaners & degreasers
- Gasoline & Diesel fuel
- Mixed motor oil
- Antifreeze

Workbench

- Paint stripper
- Paint thinner & solvents
- Oil-based paint
- Spray paint
- Stains & varnishes
- Wood preservative
- Sealants

PLEASE keep materials
in original containers!

Participating Communities*

Alexandria	Freedom	New Hampton
Andover	Gilford	Northfield
Belmont	Gilmanton	Ossipee
Bridgewater	Hebron	Sanbornton
Bristol	Hill	Sandwich
Center Harbor	Holderness	Tamworth
Effingham	Laconia	Tilton
Franklin	Meredith	Tuftonboro
	Moultonborough	

* Open to residents and residential taxpayers of these communities. You may be asked to present proof of residency.

Collection Locations

BELMONT: Fire Station (267-8300, 267-8333)

FRANKLIN: Public Works Garage (934-4103)

GILFORD: Public Works Garage (527-4778)

MEREDITH: Public Works Garage
(279-6352 or 279-8480)

August 3 (8:30am—12pm)

BRISTOL: NH DOT Garage (744-2441)

LACONIA: Public Works Garage (Bisson Ave)
528-6379)

CENTER OSSIPEE: Town Highway Garage
(539-4121 or 539-4181)

MOULTONBOROUGH: Town Highway Garage
(253-7445)

**Bring your HHW to the site that
is most convenient to you!**

Lakes Region

Household Hazardous Waste Collections

2019

Saturday July 27
&
Saturday August 3
8:30AM—12PM

Annual household hazardous waste collection events are organized by the Lakes Region Planning Commission, with financial support from participating communities, the NH Department of

Environmental Services, and donations from individuals.

What is HHW?

Household hazardous wastes are substances that **poison** or **contaminate** the environment, and **threaten** the **health** of those in the local community. They may be *flammable*, *corrosive*, *reactive*, or *toxic* and should be disposed of properly so as not to harm people or **damage** the region's soil and water resources.

Look on Product Labels For Words and Symbols...

! "DANGER"

! "POISON"

! "WARNING"

! "CAUTION"

For more [information or to donate](http://www.lakesrpc.org/serviceshhw.asp) go to www.lakesrpc.org/serviceshhw.asp or Call LRPC at 279-5334 or 279-5341.

Find us on Facebook at "Lakes Region Planning Commission - LRPC"

What Do I Do With This?

Latex paint is **NOT** accepted.

Below are alternative disposal methods for the following unaccepted items.

Bring to Transfer Station:

- Latex paint (allow it to dry out)
- Alkaline batteries
- Empty/solidified oil-based paints
- Smoke detectors
- Household trash
- Tires
- Electronics: Call ahead for local policy

Other Unaccepted Items:

For **explosives, ammunition, and fireworks**, call local law enforcement office or State Police (271-3636) for safe disposal.

For **radioactives**, call NH Department of Public Health at 271-4585.

For **medications**, check with your town's police departments for disposal. Full list of drop boxes in Lakes Region here: www.lakesrpc.org/serviceshhw.asp or Lakes Region Household Hazardous Product Facility. Call 569-5826.

Help the LRPC protect our local drinking water and environment.

Why the Concern?

It is important to dispose of these hazardous products properly.

Environment

If these products are poured down the sink or storm drains, they can pollute our drinking water and soil, threatening wildlife and local ecosystems, as well as the health of the surrounding community. Municipal treatment plants and leach fields are incapable of processing these chemicals. Even landfill disposal can lead to polluting the groundwater.

Health and Safety

If HHW is disposed of together in the trash, it could react and produce toxic fumes, explosions, or fires which could cause injury. When continuously exposed to certain products, it can have adverse short and long-term affects on the body including cancer and birth defects.

Danger to Children

Improper storage of HHW can lead to accidental poisoning of children. Most common poisoning from HHW are personal care products and cleaning substances.
