

Restoring, Selling, and Disposing of your Electronics/Appliances

[CLICK HERE to view our interactive Google Map](#)

Here is a list of businesses in the Lakes Region that may be able to repair your broken electronic devices or appliances! **The list is organized alphabetically by town.**

No repair shop in your area? Many of these businesses will travel to your home to fix your devices! You may want to consider selling your items to a company that refurbishes and re-sells used electronics. If your device is irreparable, some public transfer stations take electronics for an affordable disposal fee. [Use our interactive map for fee pricing.](#)

Where do I DISPOSE of my electronics?

Transfer Station/Recycling Center	Check if your town transfer station will take your old electronics and appliances! The facility may ask you to pay a small disposal fee to help cover the costs of breaking down the material and handling the heavy metals. This disposal fee only covers a small fraction of the costs to recycle your electronics after it's left your town's facility.
